Portfolio:

OBJECTIVE

Computer Science undergraduate seeking a Front-End / FullStack Internship with hands-on experience in React, JavaScript, and Next.js, eager to contribute to real-world applications and grow in a collaborative engineering environment.

EDUCATION

North South University, Bangladesh — BSc in Computer Science & Engineering
May 2025 – Present | CGPA: 3.59

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, DaisyUI, GSAP, React Router

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

Authentication: Firebase Authentication

Tools: Git, GitHub, Axios, Firebase, dotenv

Concepts: Data Structures, Algorithms, OOP

PROJECTS

ContestHub — Competitive Programming Contest Tracker

React | Firebase | Tailwind CSS | Recharts | Axios

Live: <https://contest-hub-988e2.web.app> | Repo: <https://github.com/SadgeRaf/ContestHub.git>

- Aggregates programming contests into a single dashboard
- Visualized user activity and statistics using Recharts
- Implemented Firebase authentication and user-specific data handling
- Built a responsive UI using reusable React components

Freelancer Marketplace — Full-Stack Web Application

React | Node.js | Express | MongoDB | Firebase

- Implemented secure authentication using Firebase
- Built RESTful APIs with Express and MongoDB for CRUD operations
- Developed a responsive dashboard using Tailwind CSS

WarmPAWS — React Single-Page Application

React | Firebase | Tailwind CSS | GSAP

- Built a SPA with authentication and user profile management
- Focused on responsive design and smooth UI interactions

Additional Projects

Three.js Practice — 3D Web Experiments | Three.js, JavaScript

Repo: <https://github.com/SadgeRaf/ThreeJS.git>

- Built interactive 3D scenes with lighting, camera controls, and animations

Farm Practice — Backend CRUD Application | Next.js, TypeScript, MongoDB

Repo: <https://github.com/SadgeRaf/Farm-Practice.git>

- Built backend CRUD functionality using Next.js API routes and TypeScript

Bus Ticket Management | C

- Built a simple bus ticket management system using C

Aim Trainer | Python

- Built a simple aim trainer using Python

Artwork Showcase | NextJS

- Built a fullstack web app with auth and mongoDB as database

ADDITIONAL

IELTS Score: 8.0 | Strong communication skills | Quick learner | Team-oriented
Programming Hero Level 1 | BlackBelt Holder
